Integral services. Flexibility and versatility.

The AXA Convention Centre is a part of an enormous complex located on the main artery of Barcelona that integrates a shopping centre, two hotels, 48.000 m² of offices, a parking lot, two schools, a sport centre and a public park. City communications are excellent and access from Barcelona's Airport and Sants Station is very quick.

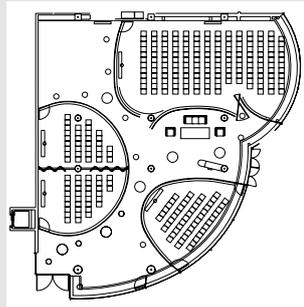

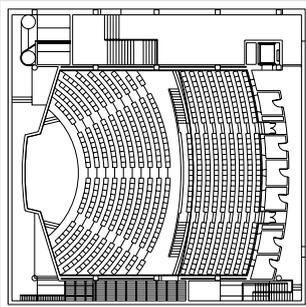

The avant-garde design and construction quality emerge from each and every detail of the building, turning the l'ILLA complex into an emblematic reference of the city.

This setting of such great character becomes the most adequate to develop activities as conventions, congresses, assemblies, presentations, debates or

concerts; the advanced technologies are the secret of its versatility. The entire capacity it's up to 621 people, comfortably seated on stalls (326) and amphitheatre (295), both with optimum view of the stage from all angles. It also has a reserved area for handicapped people.

The large extent of the lobby is very useful for accommodating exhibitions and very adequate for offering catering services during pauses or closing ceremonies of these events, in a modern and diaphanous space.

There is also a cosy restaurant area on the ground floor that can perfectly accommodate commercial exhibitions or restaurant services up to 270 guests.

Auditori AXA

As a whole, it is more than an auditorium: it is an infrastructure designed to offer quality, flexibility and integral attention through its wide range of services.

Planta Deu i Mata

Meeting and conference rooms have an independent area in the AXA Convention Centre. With direct access from Deu i Mata Street, this area has an original and very modern design emphasised by the pleasant impression of brightness caused by the glass covered walls.

The layout of the rooms adapts entirely to the needs of each user: from the conference hall and the exhibition area until the VIP rooms.

Organising events in Deu i Mata floor is very easy, comfortable and original, forming a privileged setting for activities of an average format (160 people).
